CANet Patient Engagement Framework

Patient Partners Across the Network

- In our Network, patients are members on the Board of Directors, and the Research Management Committee, on every governance and operational committees
- Patients are co-lead and leading research programs
- Patients are actively integrated in the peer-review process of research funding in the Network
 - Developed a patient scoring system
 - Integrate with scientific score
- Developed an educational program for patients to interact with CANet in a meaningful manner
- Developed an education program for Network investigators to interact with patients as equal partner
